CERAMICS

Dubai Downtown, UAE

At RAK Ceramics we help to create icons, we help to build marvels and our products feature in some of the most iconic buildings in the world. We are known for our wide product range and our ability to produce bespoke ranges for both small and large scale projects, enabling our clients to bring their ideas to life. We respect, we inspire, we improve, we deliver; no matter the ambition, no matter the challenge, at RAK Ceramics we take care of all the details, however large or small, so you don't have to. Our passion and expertise combined with this careful attention to detail enables us to provide you with a wide range of integrated ceramics solutions, allowing you freedom to be creative and plenty of room for imagination.

TALENT, EXPERIENCE AND IMAGINATION, BUILD MARVELS.

Creative Collaborations

Collaboration is the essence of Creation. RAK Ceramics works with renowned designers to create innovative bathroom products that will inspire and enhance your imagination. Aimed to address the evolving design demand of the market, these collaborations bring forth creative ideas and latest trends in the industry resulting in an aesthetic and functional bathroom collection. RAK Ceramics brings the designer's idea to life by creating high quality products which gives the customers the freedom to imagine.

Starting from the left side:
Patrick Norguet
Giuseppe Maurizio Scutellà
Sahar Madanat
Daniel Debiasi
Federico Sandri

Design by Sahar Madanat

Sahar is an industrial designer by training and an entrepreneur and design advocate by heart.

She is one of the most awarded designers in the Middle East and is considered a pioneer in product design. Her design work ranges from medical design to new concept furniture. At the same time, Sahar works hard at developing new talent and inspiring design thinking in the Middle East through talks, mentoring, workshops and using design to empower under privileged communities.

IMPRESSIONS IN SAND

A place for rest and calm, a place to restart

RAK-Remal is the new RAK Ceramics bathroom collection made in collaboration with Sahar Madanat, one of the most emergent and talented product designer in the Middle East. She was inspired by the dynamic forms of the sand dunes shaped by the wind, to create the sculptural design of the collection. All the washbasins are available in two different finishes: glossy white and the earthy & natural look Mica White, a new artistic glaze obtained adding particles of Mica in the mix (Muscovite mineral).

A place for rest and calm, a place to restart

CLOSE TO NATURE, INSPIRED BY SAND.

RAK-Remal, (Sands) is inspired by the interplay of textures and forms in the desert. The interaction of sand with the wind. How sand is shaped by the hooves of a horse or pushed away with a stroke of a hand. The stillness and serenity of the desert. These natural and raw elements that form beautiful soft shapes simply by moving sand. The feeling they emit and the inspiration they bring are what inspired the design language in this collection, in which every detail is designed to bring us closer to nature. To revive and refresh from the hustle of life.

Living close to nature or visiting the calm and tranquil desert, revives the soul.

SBID INTERNATIONAL DESIGN AWARDS 2021 WINNER

archiproducts DESIGN AWARDS — WINNER 2021

Design by Patrick Norguet

Patrick Norguet is an essential figure on the international design scene.

After completing his design studies at the ESDI, Patrick Norguet was commissioned to design the display windows of two major players in the luxury industry: Yves Saint-Laurent and Louis Vuitton. From these experiences, he gained an un- derstanding of brand identity and the way of showcasing it. Designing Renault ‘s event stands helped him to hone and apply his synthesis skills to ephemeral architectures.

In 2000, his Rainbow Chair, noticed and produced by Giulio Cappellini, gave him visibility that quickly spread thanks to the international media. He then opened his studio in Paris. His early furniture collections for Bernhardt, Artifort, Offect, Capdell or the French companies Alki and Tolix validated and established his presence at international shows. In 2010, designing one McDonald’s restaurant in France gradually led to a collaboration with McDonald’s Global. Patrick Norguet has become an emblematic figure of French design.

Alias, Arflex, Artemide, Cassina, Emu, Ethimo, Glass Italia, Kristalia, Lea Ceramica, Pedrali, de Padova, and Tacchini quickly recognized his talent and authority and fully involved him in the production process and strives to create long-lasting collections. Drawing inspiration from everything that surrounds him, Patrick Norguet does not follow trends but seeks to give shape to products whose relevance and modernity would withstand the test of time: “A well-designed object, an object created through generous collaboration is timeless.”

INSIDE OUT

Bringing domestic life into the open (and viceversa)

A special project, the result of a very simple concept, but just as strong as to give character to the house in every detail: dialogue. Dialogue between inside and outside, between light and shadow, dialogue between volumes, dialogue between lines, dialogue between elements, shapes and materials. From the dialogue comes a new way of living and enjoying the domestic space, which becomes a space free from patterns, permeable, osmotic, innovative.

In every internal environment, the outside is present and alive and tells the evolution of the day and the surrounding scenery. Inside, the delicate balance is never disturbed and each element is functional to the person in this constant and harmonious exchange. Everything depends on who lives in the space, and it being the center of this dialogue - a witness to something magical and delicate

THE DELICATE BALANCE OF LIGHT, SHADOW, SHAPE AND MATERIALS

A CONSTANT AND HARMONIOUS EXCHANGE, AT THE SERVICE OF THE PERSON

RAK-CLOUD

Design by
Giuseppe Maurizio Scutellà

Giuseppe Maurizio Scutellà was born in Alcamo, Sicily. His collaboration with RAK Ceramics begins with RAK-Cloud (2018), a project that continues the creative thinking of the Italian designer and that integrates perfectly with his other projects such as the collection of lamps “Pirce” by Artemide (Good_Design 2008, Red Dot Award 2009, IF Design Award 2010) and the “Metropolis” collection of crystal and ceramic tables by Tonelli Design.

“I like to talk with the soul of all my projects, discover its history and capturing the most hidden hues of its character, respecting its nature and embracing its languages. It is my way of approaching its magical essence and becoming its interpreter”.

Design by Daniel Debiasi and Federico Sandri

Daniel Debiasi and Federico Sandri founded their own design studio in 2010 and work within various fields of design, ranging from objects to spaces. Multiple experiments and the relationship between manufacture and craftsmanship form the basis for a much broader thinking, where objects are always considered as part of a bigger picture. They have created work for Antoniolupi, Lema, Ligne Roset, Normann Copenhagen, Offecct, Rosenthal, Stelton, Villeroy & Boch among others. Many of their projects have received international design awards and are featured in publications worldwide. In addition to their work as designers, they regularly teach, hold workshops and lectures at various institutions including IUAV Venezia and Politecnico di Milano. Together with Rak Ceramics, Daniel Debiasi and Federico Sandri present the project RAK-Variant (2019).

Design by
Giuseppe Maurizio Scutellà

Giuseppe Maurizio Scutellà was born in Alcamo, Sicily. His collaboration with RAK Ceramics begins with RAK-Cloud (2018), a project that continues the creative thinking of the Italian designer and that integrates perfectly with his other projects such as the collection of lamps “Pirce” by Artemide (Good_Design 2008, Red Dot Award 2009, IF Design Award 2010) and the “Metropolis” collection of crystal and ceramic tables by Tonelli Design. RAK-Petit is the second concept developed together with RAK Ceramics (2019).

“I like to talk with the soul of all my projects, discover its history and capturing the most hidden hues of its character, respecting its nature and embracing its languages. It is my way of approaching its magical essence and becoming its interpreter”.

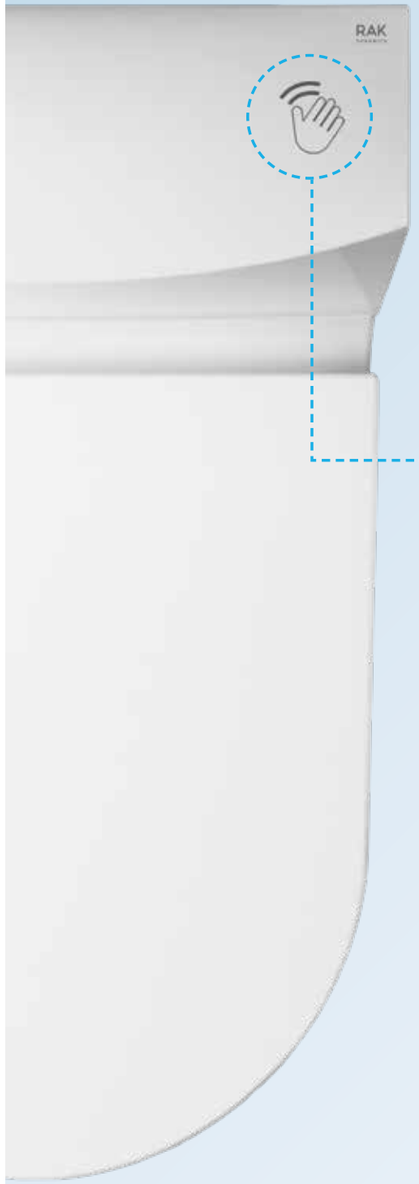
RAK-DES TOUCHLESS FLUSHING

The hygienic hands-free flushing experience



More Easy And Hygienic

Enjoy the same hands free, germ free experience of commercial restrooms. With the new Rak Ceramics Touchless Flushing System, this same ease of use and minimal spreading of germs has finally expanded to the home use toilets. A sensor module mounts underneath the toilet's cistern lid and runs on four AA batteries. It utilizes emerging sensing technology, which projects an electromagnetic field that is both extremely accurate and reliable. This type of sensor detects the user in the projected field and initiates the dual flush: 6 Liters keeping the hand above the spot, or 3 Liters waving the hand.

DUAL FLUSHING:

- Still hand above the indicated spot for full flush.
- Waving hand above the indicated spot for half flush.

Technical Information:

- Sensor area is within 40mm~60mm from the surface of the cistern lid; effective diameter of the sensor area is within 100mm.
- Battery life: around 2 years for family use, and 1 year for commercial using.
- Override lateral push button in case of failed battery.

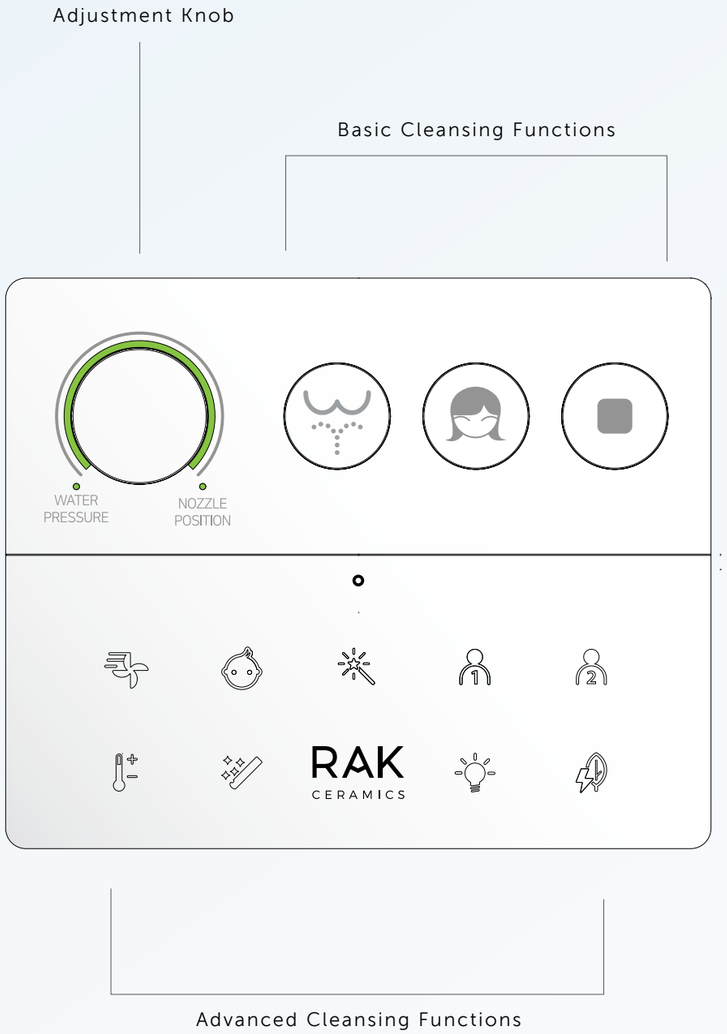
Radar User Detection

Large Comfortable Seating Area

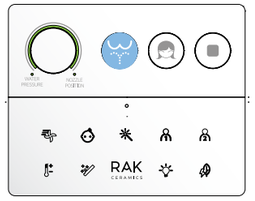
RAK
CERAMICS

Advanced functionalities made easy

RAK-Cleon’s remote provides full control at your fingertips, easily and intuitively. While the three main buttons activate the main cleansing functions, the intuitive adjustment knob allows the user to select the preferred water pressure and nozzle position. All other cleansing functions appear to the user only if the RAK Ceramics logo is tapped, allowing a more advanced experience.



RAK-CLEON / BASIC CLEANSING FUNCTIONS

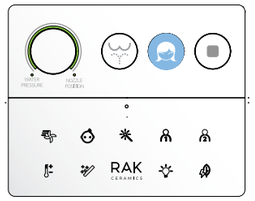


REAR WASH

Pleasant and reliable cleansing. Water temperature, water spray intensity and the spray wand position can be individually adjusted. The spray wand and nozzle are cleaned automatically before and after each use.

Adjustable settings:

- Water temperature (OFF, 33°C, 36°C, 39°C)
- Water flow pressure (5 levels)
- Nozzle position (5 levels)
- Nozzle oscillating movement

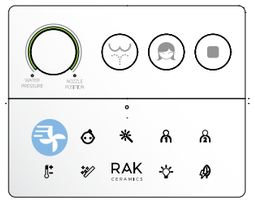


FEMININE WASH

Specially-developed for the needs of female users. It provides a gentle stream of water for a delicate wash. The spray wand and nozzle are cleaned automatically before and after each use.

Adjustable settings:

- Water temperature (OFF, 33°C, 36°C, 39°C)
- Water flow pressure (5 levels)
- Nozzle position (5 levels)
- Nozzle oscillating movement

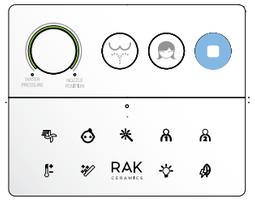


WARM AIR DRYER

The use of the various cleansing functions can be followed by a gentle flow of warm drying air. The temperature and intensity of the warm air dryer can be adjusted. Operating time 180 seconds.

Adjustable settings:

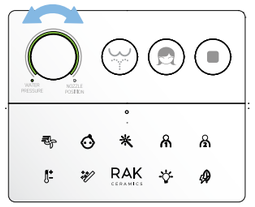
- Air temperature (5 levels)
- Air flow intensity (2 levels)



STOP

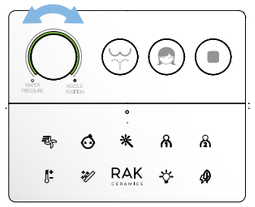
Halts the current activated function.

RAK-CLEON / ADVANCED CLEANSING FUNCTIONS



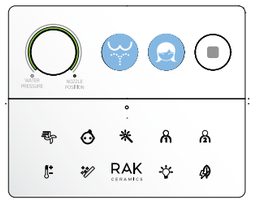
WATER PRESSURE ADJUSTMENT

The water flow pressure can be intuitively adjusted to 5 different intensity levels through the rotating knob. It adapts to each user's needs, making it a customizable experience.



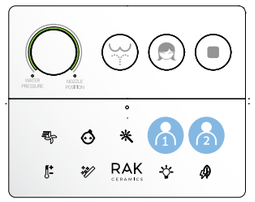
NOZZLE POSITION ADJUSTMENT

The position of the wand jet can be intuitively adjusted to 5 different levels through the rotating knob. It adapts to each user's needs, making it a customizable experience.



OSCILLATING MOVEMENT

During rear of feminine cleansing is possible to activate the oscillating mode pressing again the button. The wand jet moves in and out for thorough cleansing over larger areas, for a feeling of ultimate clean.

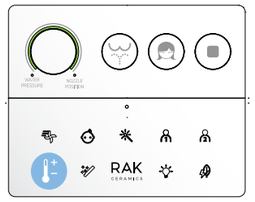


2 MEMORY SETTINGS

Personalized experience thanks to exclusive setting for 2 users. Water pressure and exact position of the nozzle can be set to individual preference.

Personal settings:

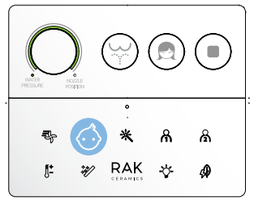
- Water flow pressure (5 levels)
- Nozzle position (5 levels)



WATER TEMPERATURE ADJUSTMENT

Pressing the dedicated button on the remote control, allows water temperature adjustment to 3 different ideal levels. Alternatively water heating can be completely turned OFF.

OFF 33°C 36°C 39°C

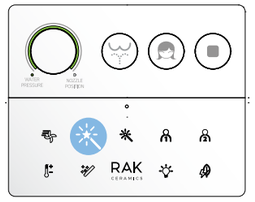


CHILD MODE

The child mode is a gentle automatic cycle of rear cleansing (40 sec.) and drying (180 sec.) adjusted to children's delicate needs and typical forward sitting position.

Fixed settings:

- Water temperature (as per general setting)
- Water flow pressure (level 1)
- Nozzle position (level 5)
- Air temperature (level 3)
- Air flow intensity (level 1)

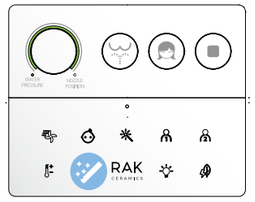


AUTOMATIC MODE

The automatic mode is a standard automatic cycle of rear cleansing (20 sec.) with oscillating movement (20 sec.) and drying (180 sec.) adjusted to standard needs, it is ideal for elder people not familiar with technology.

Fixed settings:

- Water temperature (as per general setting)
- Water flow pressure (level 2)
- Nozzle position (level 3)
- Air temperature (level 3)
- Air flow intensity (level 1)



AUTO CLEANING NOZZLE

The spray wand and nozzle are cleaned automatically before and after each use, but is possible to run a 30 seconds auto cleaning cycle when desired. To extract the nozzle for a manual cleaning, press the button for 5 seconds.

RAK-CLEON / BASIC CLEANSING FUNCTIONS

QUICK RELEASE SEAT COVER

Seat cover can be easily detached from the toilet, making it fast and easy to clean all the surrounding area.

NO HIDDEN CREVICES

All areas of RAK-Cleon can be easily reached, there are no hidden crevices making it easy to reach and clean.

WAND CLEANING

The spray wand and nozzle are cleaned automatically before and after each use, but is possible to run a 30 seconds auto cleaning cycle when desired.

WAND EXTRACTION

To extract the nozzle for a deeper manual cleaning, press the button for 5 seconds, the nozzle will remain in fully extended operating position for 180 seconds, with no water emission.

RAK-CLEON / ADVANCED CLEANSING FUNCTIONS

TOILET BASIC FUNCTIONS NEVER COMPROMISED

In case of no electrical power or system failure and consequent need of assistance from RAK Ceramics, the product can continue to be used. RAK-Cleon's basic toilet functions are never compromised: flushing, seating, soft close seat & cover and quick release.

AUTOMATIC DESCALING PROGRAM

RAK-Cleon is programmed for a periodic automatic limestone removal, depending on the water quality. The water quality is verifiable with the water hardness test included in the product, to do during installation.

TANK DRAINER PROGRAM

RAK-Cleon's tank (approx. 1,4L) automatically renews the water every 4 days of non-use, in order to ensure always safe and fresh water. In case of longer periods of non-use, it is possible to manually empty the water tank pressing the STOP button for 5 seconds. It takes approximately 2 minutes to complete the operation, afterwards it is recommendable to turn off the power from the main switch placed under the lid.

RAK-CLEON / TOILET FEATURES

SOFT CLOSE AND QUICK RELEASE

Seat cover closes on its own as soon as it is pushed down, it gently and slowly lowers to its closed position. It can be easily detached from the toilet, making it fast and easy to clean all the surrounding area.

HIDDEN FIXATIONS

Our wall hung and back to wall products are benefitting of the collaboration with Fischer Group, one of the industry leaders. The use of the most innovative Fischer fixing systems, is allowing us design freedom on the ceramic, better aesthetics and more safety for the installer.

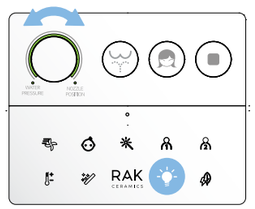
Water Saving
Easy Cleaning
Silent
Hygienic
No ledges or rim

REELFLUSH TECHNOLOGY

RAK-Cleon's RAK Ceramics delivers the ultimate in technology for bathroom suites. Based on similar design specifications to sanitaryware in hospitals and medical centres, RAK Ceramics Reelflush water closets allows you to experience the same high standards of hygiene in your own home.

HIDDEN WATER AND ELECTRIC SUPPLY

The water and electricity supplies are concealed behind the bowl; no cables or flexible hoses are visible on the installed product.



NIGHT LIGHT

RAK-Cleon's night light can be adjusted to guide the user to the toilet during night time, without needing to switch on the main bathroom light. It provides orientation and safety, without interrupting the body's repose. The LED light can be adjusted to 5 different intensity levels and 5 colors.

BLUE SKY BLUE GREEN VIOLET RED

RAK-ECOFIX 8CM CONCEALED CISTERN FOR SMART TOILETS

The new RAK-Ecofix concealed cistern for electronic toilets, is the ideal choice for an optimal installation of RAK-Cleon. Prepared for an easy connection of the water and electrical supplies hidden behind the RAK-Cleon ceramic profile, it is suitable for any construction situation. The frame features top level quality standards and innovative solutions. Easy tool free .maintenance can be performed at any time, through the service opening behind the push plate

3 DIFFERENT ENERGY MODES

To suit your lifestyle RAK-Cleon features 3 types of energy saving modes: Super Eco, Eco and Normal.
This flexible choice offers benefits in terms of energy saving and environmental policy.
RAK Ceramics is constantly involved in the study of new solutions to reduce the amount of energy used, without jeopardizing the product performance.

SUPER ECO: unit warms the water only when user is detected.

ECO: unit keeps water constantly at 30°C and warms water to operating temperature only when user is detected.

NORMAL: unit keeps water constantly at the operating temperature.

ENERGY SAVER DEFAULT MODE

Nowadays sensitivity towards the environment and energy consumption, is growing. RAK-Cleon is set by default to Super Eco Mode and is environmentally friendly: the unit is always ready to use but consuming minimum levels of energy. It activates the water heating only when the radar detects the user in proximity of the toilet, with a very low environmental impact. In normal conditions, once the user is detected, it takes approximately 60 seconds to heat the water to the operating temperature.

NO CHEMICAL CLEANSERS

The RAK-Cleon stainless steel wand is self cleaning, using high pressure warm water jets, therefore it is not necessary the daily use of chemical additives for cleaning. This also makes the system maintenance free, it doesn't require to be filled with chemical substances.

EFFICIENT CLEANSING

The use of RAK-Cleon ensures a more efficient personal hygiene, reducing the use of wet wipes (or similar products) that aren't environmentally friendly.

LED LIGHTS

The system uses only LED highly energy efficient lighting technology. LED uses at least 75% less energy, and lasts 25 times longer, than incandescent lighting.

RAK-CLEON

Compatible with 6/3L dual flushing, 4,5/3L dual flushing, in accordance with en997 - type 1.

RAK-BATU

BALINESE STYLE, CONTEMPORARY DESIGN

Bali: the name is enough to evoke the distinctive decorative style of the fascinating Indonesian island.

A mystical trend that today we also find in interior architecture and which in various forms has become synonymous with harmony with nature. Let yourself be inspired by this style when designing your spaces.

Light, air, neutral shades and natural materials, including bamboo, straw and palm fronds, are some of the recurring elements in exotic interiors, designed to encourage sociality, contemplation and harmony with the surrounding landscape. Furnished with seats, furniture and low tables in carved wood, as per the artisan traditions, the exotic interiors have no perimeter walls, which may be replaced by spectacular curtains.

Get inspired and add your personal touch.

TACTILE MATERIALS FOR MODERN DESIGN

Touching is not just a sensation, but a human need and today interior design aims at recapturing through it the real essence of life, reacting in this way to the overwhelming presence of technology and digitalism in our everyday lives. In an increasingly digital world, the desire for physicality and authenticity is growing.
A desire that translates into tactile and natural materials made to be touched with the eyes, even before with the hands. Tactile materials play a leading role in design lately: from floors to walls, from furniture to bathroom products. Many variations, one goal: to convey a feeling of comfort and warmth. Thus color, matter and light interact on the surfaces, defining the character of the environments. Material surfaces have the power to reconnect with nature and make us feel positive emotions. Important feelings to live in our homes, which have become a real need.

RAK-Skin was born from this need of physicality, and the pursuit of harmony with domestic contexts minimalist and sophisticated style, made of natural colors and materials with a strong and distinctive character.

WASH BASINS FOR FURNITURE

FURNITURE

We play our role for a better environment and society

Sustainability in every sphere of business is one of the main elements of RAK Ceramics mission statement. The company is committed to practicing environmental stewardship throughout its manufacturing chain – from product design and efficient operations processes – and to playing an active role in building a better community by enhancing the surrounding environment. Organization's activities improve energy efficiency, reduce pollution, enhance biodiversity and improve the quality of life for both people in the communities it operates in and for its workforce. It recycles natural raw materials to help conserve natural resources and adopts clean development mechanism (cdm) projects to reduce carbon emissions during the manufacturing process.

RAK Ceramics is the first ceramics manufacturing company in its region to produce a global reporting initiative (GRI) sustainability and corporate social responsibility (CSR) report, based on the latest GRI-g4 guidelines. RAK Ceramics is a founding member of Emirates Green Building Council, which supports the development of sustainable buildings in the UAE.

FROM RESPONSIBLE SOURCES FSC® CERTIFIED
The RAK-JOY wooden furniture collection respects the environment and the life of the furniture itself. All particleboard and MDF used in the construction of this striking furniture collection comes from responsible sources FSC certified, respecting the forests, the people and wildlife who call them home.

WATER INGRESS TEST
Prova di ingresso dell'acqua | Test d'entrée d'eau | Prueba De Penetración Del Agua | Wassereintrittstest I испытания водонепроницаемости

All external panels including doors and drawers are subjected to 10 cycles over 5 days to water ingress tests and pass against no swelling or degradation of the panels.
Tutti i pannelli esterni, compresi porte e cassetti, per 5 giorni vengono sottoposti a 10 cicli di prova di ingresso dell'acqua, che superano non presentando alcun gonfiore o degradazione dei pannelli.
Tous les panneaux extérieurs, y compris les portes et les tiroirs, sont soumis à 10 cycles sur 5 jours pour effectuer des tests d'infiltration d'eau et ne pas faire gonfler ou dégrader les panneaux. Todos los paneles externos, puertas y cajones incluidos, son sometidos a 10 ciclos a lo largo de 5 días de pruebas de penetración del agua, que se superan en caso de no producirse hinchamientos o deterioros de los paneles.
Alle Außenpaneele einschließlich Türen und Schubladen werden 10 Zyklen über 5 Tage unterworfen, um Wassereintrittsversuche durchzuführen und Schwellung oder Verschlechterung der Platten zu verhindern.
Все внешние панели, включая дверцы и выдвижные ящики, проходят 10 циклов испытаний на водонепроницаемость в течение 5 дней без разбухания или снижения качества панелей.

Wooden products are made of material from responsible sources FSC® certified.
I prodotti in legno sono composti da materiale proveniente da fonti responsabili certificate FSC®. | Les produits du bois sont fabriqués à partir de matériaux provenant de sources responsables certifiées FSC®. | Los productos de madera se realizan con material procedente de recursos responsables certificados FSC®.
Holzprodukte werden aus Material von FSC®-zertifizierten verantwortungsvollen Quellen hergestellt. | Деревянные изделия изготовлены из материала из источников, сертифицированных FSC®.

Quality Management system certified for facilities, people, training, services and equipment.
Sistema di gestione della qualità certificato per strutture, persone, formazione, servizi e attrezzature.| Système de gestion de la qualité certifié pour les installations, les personnes, la formation, les services et l'équipement. | Sistema de gestión de la calidad certificado para instalaciones, personas, formación, servicios y equipamientos. | Qualitätsmanagement-System zertifiziert für Einrichtungen, Personen, Schulungen, Dienstleistungen und Ausrüstung. | Система управления качеством сертифицирована для производственных мощностей, персонала, обучения, услуг и оборудования.

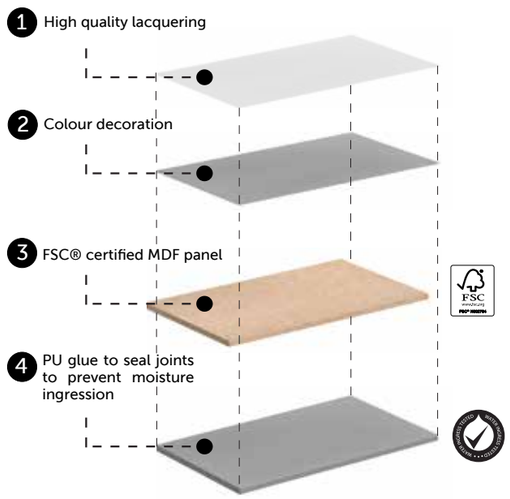
RAK CERAMICS

High-quality furniture products you can trust

We strive to provide the best premium bathroom products that you can trust and count on. To do so, we ensure our products meet the most rigorous tests based on international quality regulations.
Within our furniture and mirror range, all external wooden panels including doors and drawers are subjected to 10 cycles over 5 days to water ingress tests and pass against no swelling or degradation of the panels. Our furniture products featuring drawer runners and hinges are also covered by lifetime warranty. In line with sustainable manufacturing practices, all wooden products are made of material from responsible sources FSC® certified.
We know that value starts with quality and you can trust our products will stand the test of time.

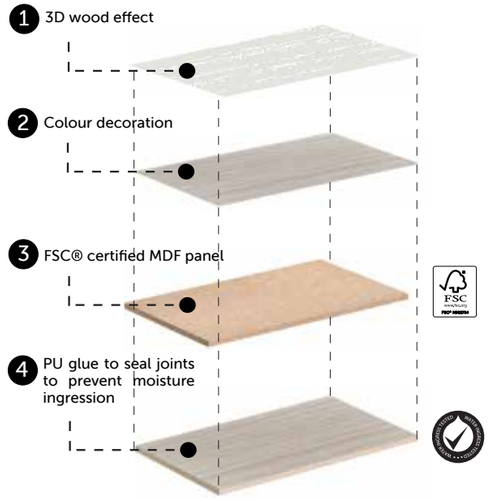
MATERIALS

LAMILAK



LAMILAK is the new gloss material that exudes consistent quality and performance. The brilliant high gloss shine gives a striking smooth surface final appearance. To protect the environment, LAMILAK is produced from PET recyclable material.

TECHWOOD



TECHWOOD is the new wood effect material that gives the tactile impression of real wood. Revel in the touch and feel of its vibrant texture. To protect the environment, TECHWOOD is produced from polypropylene recyclable material.

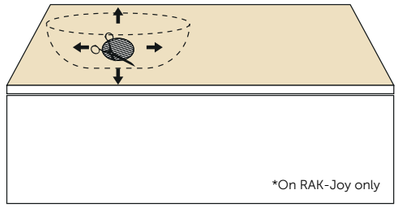
RAK-PLANO / SURFACES IN TECHWOOD

RAK-PLANO CUSTOMIZATION

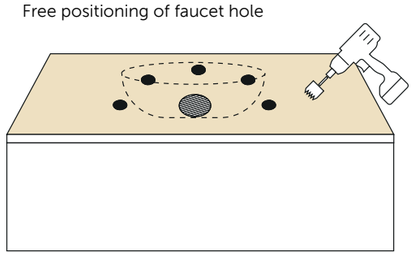
RAK-Plano surfaces made of RAKSOLID, are easy to cut and drill during the installation. The cut can easily be carried out on site by the installer, with common wood tools. RAK-Plano gives you the possibility to install the washbasin and the faucets in your favorite position and offers you the chance to change your mind onsite (before drilling) and to revise your project if needed.

Some examples of customization

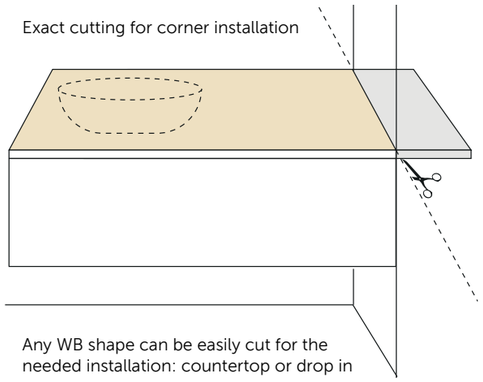
Free positioning of washbasin outlet



Free positioning of faucet hole



Exact cutting for corner installation



Any WB shape can be easily cut for the needed installation: countertop or drop in

FLUSHING SYSTEMS

RAK
CERAMICS

Can we save water in our bathrooms?

One of the easiest ways to save water is to install a toilet with a dual-flush cistern.
Dual-flush cisterns let the user choose how much water to use when flushing the toilet and they are designed for wall-hung, back-to-wall and close coupled water closets.

RAK Ceramics flushing systems, allow you to choose using the full flush or the half flush, with different flushing volumes: 6 Liters for the full and 3 Liters for the half flush. The cisterns can also be adjusted to flush with a reduced full flush volume at 4.5 Liters.

For countries with limited water resources, RAK Ceramics has developed innovative water closets perfectly flushing with a reduced 3 Liters single flush.

By using a lower volume of water to flush the toilet you can dramatically reduce your annual water consumption.

DUAL FLUSHING:

6L Or 4.5L Large button for full flush.

3L Small button for half flush.

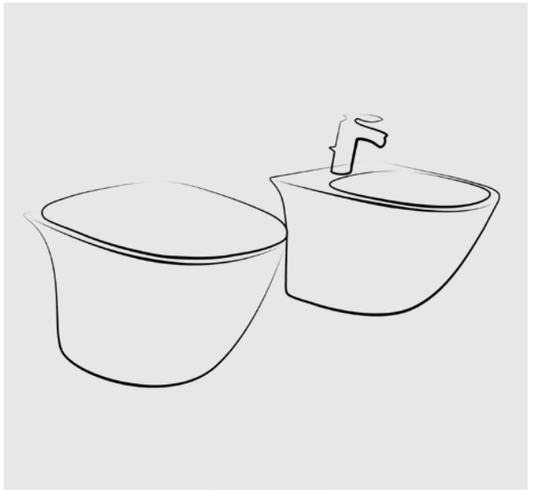
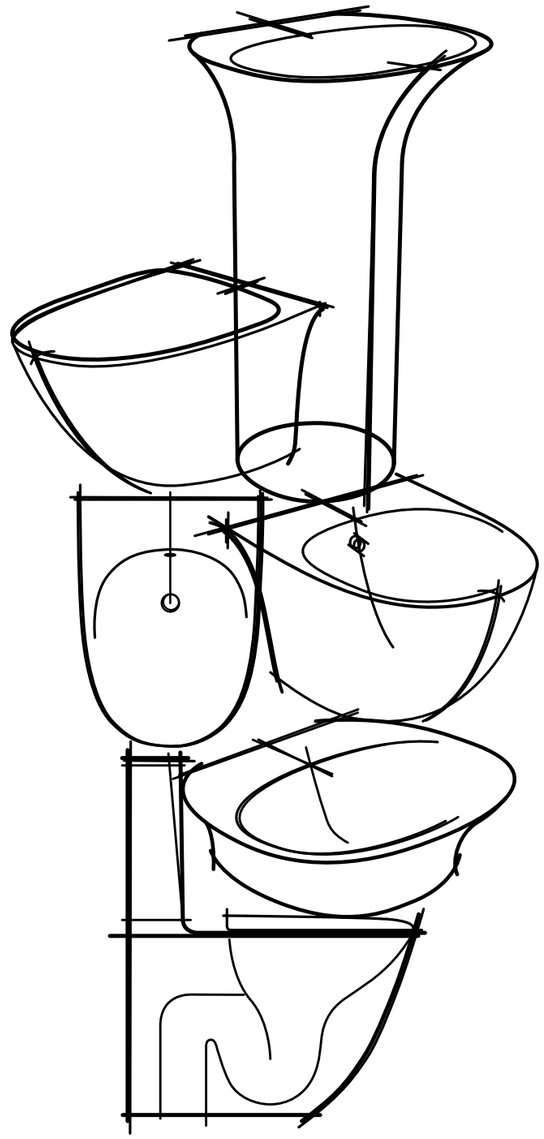
RAK
CERAMICS

Quality design for international tastes

RAK Ceramics product development has created a very wide range of products with carefully finished details and quality design to suit international tastes, incorporating the latest rimless technology.

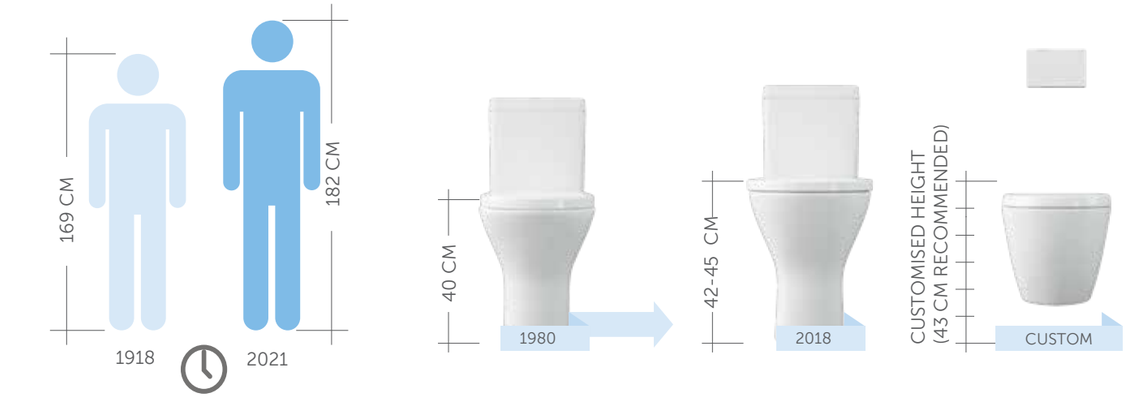
Carefully designed and engineered with the aid of the latest 3D CAD softwares and prototyped with 5 axis CNC machines, RAK Ceramics Sanitaryware range has the perfect solution for your bathroom, whatever you have imagined.





design

RAK
CERAMICS



Updated ergonomics

Over the last 100 years, the average height of people in industrialized nations has increased approximately by 10 cm. To be innovative in design also means meeting the changes in population and their new needs in terms of ergonomics and comfort. RAK Ceramics design evolves together with human evolution.

RAK
CERAMICS

Hidden fixation systems

Our wall hung and back to wall products are benefitting from the collaboration with Fischer Group, one of the industry leaders. The use of the most innovative Fischer fixing systems, is allowing us design freedom on the ceramic, better aesthetics and more safety for the installer.

The Hidden Fixation System is comfortable and time saving, in fact one-man installation is made possible by the clip system that keeps the ceramic held up during the installation.

FOR BACK TO WALL AND FREE STANDING

Rimless technology

RAK Ceramics delivers the ultimate in technology for bathroom suites. Based on similar design specifications to sanitaryware in hospitals and medical centres, RAK Ceramics Rimless water closets allows you to experience the same high standards of hygiene in your own home.
RAK Ceramics continues to set new standards of hygiene and water efficiency in the sanitaryware industry, with uniquely engineered water flushing systems that effectively remove waste, helping to keep bathrooms fresh and hygienic.

WATER SAVING
Using just 4 litres for the full flush and 2.5 litres for the half flush, water usage is reduced by a third.

HYGIENIC AND EASY TO CLEAN
The water closets have no rims to harbour germs, making cleaning quick, easy and more hygienic.

SILENT FLUSH
Rimless technology allows a faster and more silent flush.

EFFICIENT DESIGN
Design and efficiency can be successfully combined. Water flows vertically and horizontally, before flushing the entire inner surface of the bowl, without splashing.

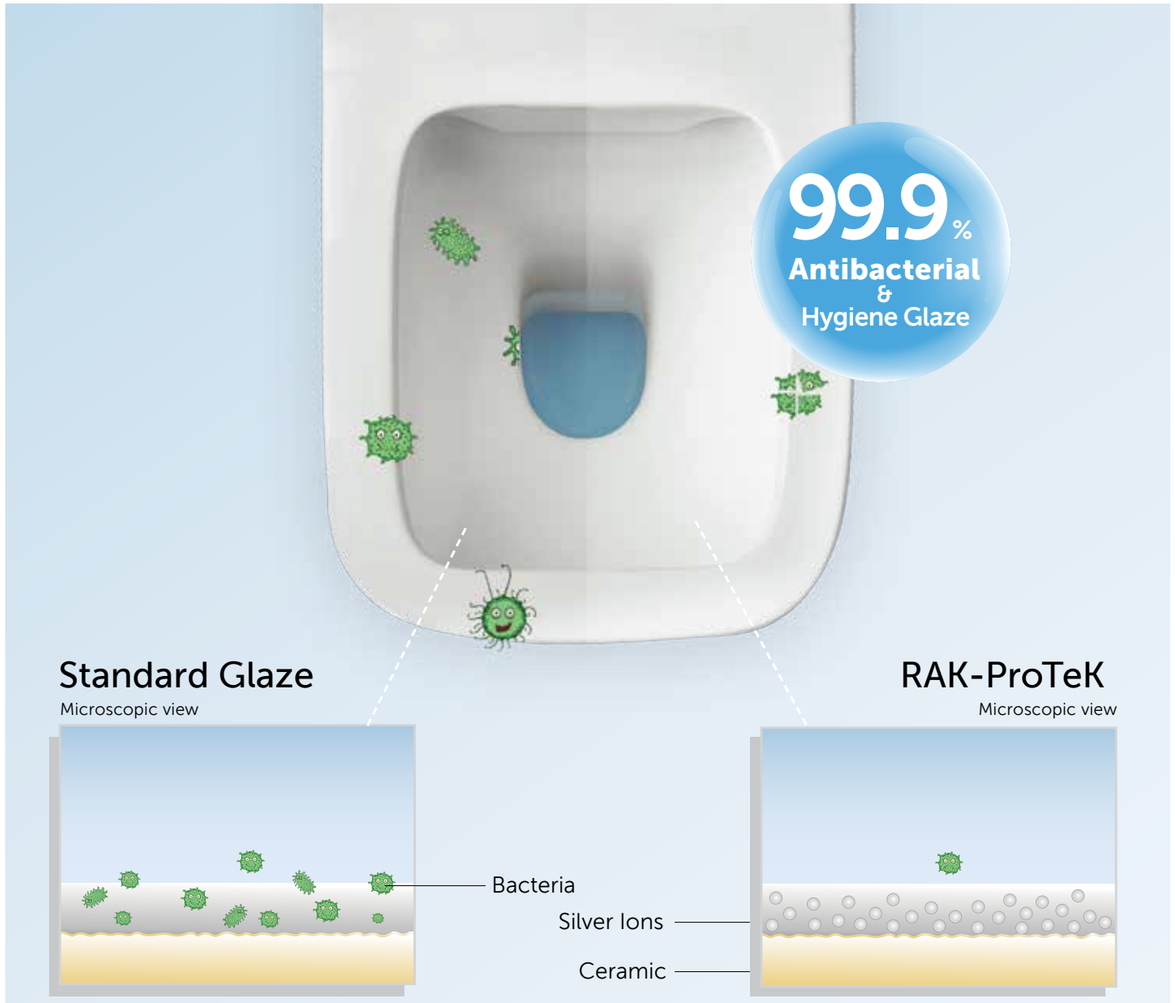
RAK
CERAMICS

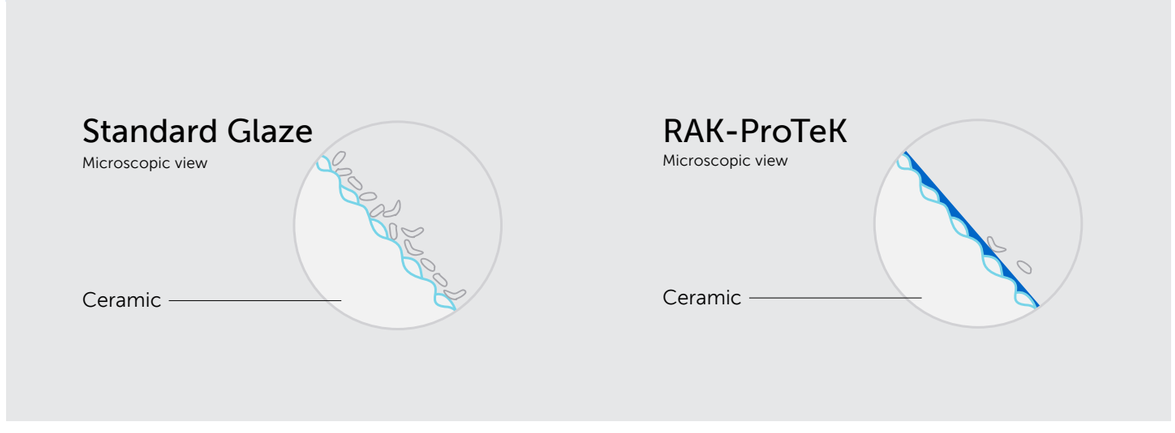
A new standard for hygiene

RAK-Sanit solutions for your bathroom are produced with RAK-ProTeK, the innovative ceramic glaze developed to protect wash basins, toilets and urinals, to make them more hygienic and easier to clean. RAK-ProTeK, which is baked into the ceramic during firing, results to a smoother surface, unlike standard ceramic with irregular surface.

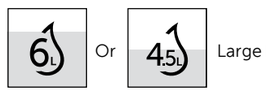
This feature allows the participles accumulating on the ceramic to easily slip away making cleaning more efficient and convenient.

The silver ions contained in this revolutionary glaze, kill 99.9% of bacteria in 24 hours and prevent the bacterial growth, in comparison to conventional ceramic glazing. RAK-ProTeK glaze has been tested by Artest laboratory from the Italian Ceramic district in Modena.





DUAL FLUSHING:



Or

Large button for full flush.

Small button for half flush.

RAK
CERAMICS

Can we save water in our bathrooms?

One of the easiest ways to save water is to install a toilet with a dual-flush cistern.
Dual-flush cisterns let the user choose how much water to use when flushing the toilet and they are designed for wall-hung, back-to-wall and close coupled water closets.

RAK Ceramics flushing systems, allow you to choose using the full flush or the half flush, with different flushing volumes: 6 Liters for the full and 3 Liters for the half flush. The cisterns can also be adjusted to flush with a reduced full flush volume at 4.5 Liters.

For countries with limited water resources, RAK Ceramics has developed innovative water closets perfectly flushing with a reduced 3 Liters single flush.

By using a lower volume of water to flush the toilet you can dramatically reduce your annual water consumption.

CERAMICS

Quality makes us different

RAK Ceramics was the first company in United Arab Emirates being awarded with ISO 9001 certification by internationally recognized UK certification body “CICS” (Ceramic Research Institute Certification Scheme) for ceramics tiles and sanitary wares. Bureau Veritas Certifications verified the implementation of RAK Ceramics’ quality management system and certified the company in compliance with the requirements of ISO 9001:2015 with the scope covering the design, development, production and supply of ceramics and porcelain floor and wall tiles, slabs and vitreous china sanitary wares.

Bureau Veritas Certifications also certified RAK Ceramics for ISO 14001:2015 Environmental Management System.

Every phase of the RAK Ceramics sanitaryware production process counts on strict quality control procedures. The leadership in the GCC Region and the strong presence in several other international markets reflect our everyday efforts. Our internal Norms comply and exceed the international requirements in terms of quality and performance.

Its Testing Laboratory is operating in accordance to ISO/IEC 17025 accredited by NATA (National Association of Testing Authorities, Australia).

RAK
CERAMICS

Latest technology and manufacture

RAK Ceramics is internationally recognized for the high quality of its sanitary ceramics. This quality comes from carefully selected premium raw materials that ensure a perfect finish of the products. Better ingredients, better sanitaryware!

At RAK Ceramics we are not just ceramic experts. We also manufacture seat covers, acrylic bathtubs and showertrays.

RAK
CERAMICS

Global approvals & standards

RAK Ceramics Sanitaryware production is accredited with the world's most reputable certification entities; with national and international certifications for product and processes, RAK Ceramics not only complies to the requirements, but often exceeds the most stringent international standards. Our own water/air severe product testing is performed on the 100% of WC & Bidet production. Only complying products are labeled with our QC sticker: a seal of quality and performance!

We play our role for a better environment and society

Sustainability in every sphere of business is one of the main elements of RAK Ceramics mission statement. The company is committed to practicing environmental stewardship throughout its manufacturing chain – from product design and efficient operations processes – and to playing an active role in building a better community by enhancing the surrounding environment. Organization's activities improve energy efficiency, reduce pollution, enhance biodiversity and improve the quality of life for both people in the communities it operates in and for its workforce. It recycles natural raw materials to help conserve natural resources and adopts clean development mechanism (cdm) projects to reduce carbon emissions during the manufacturing process.

RAK Ceramics is the first ceramics manufacturing company in its region to produce a global reporting initiative (GRI) sustainability and corporate social responsibility (CSR) report, based on the latest GRI-g4 guidelines. RAK Ceramics is a founding member of Emirates Green Building Council, which supports the development of sustainable buildings in the UAE.

FROM RESPONSIBLE SOURCES FSC® CERTIFIED
The RAK-JOY wooden furniture collection respects the environment and the life of the furniture itself. All particleboard and MDF used in the construction of this striking furniture collection comes from responsible sources FSC certified, respecting the forests, the people and wildlife who call them home.
