ELIE SAAB continues expanding into a lifestyle brand that delivers a unique experience of the brand's universe. The ceramic creations will further enhance a luxury living expression, exclusively presented by RAK Ceramics: where luxury design meets ceramic expertise.

Both companies founded in the 80s with a history firmly rooted in the region, ELIE SAAB and RAK Ceramics, are leading companies in their respective fields and share a vision of exquisite design, impeccable craftsmanship and uncompromising excellence in luxury living. Beautiful finishes, elegant marble textures, classic and contemporary colour combinations are produced using only the finest raw materials and the latest technology. The ELIE SAAB Bathroom and Surface Collections inspire interior designers and architects to create unique, luxurious, and distinctive living environments, and this first foray into the world of ceramics will be yet another beautiful brand addition to the world of ELIE SAAB.

Five elegant collections are brought to life, encompassing: **Glamour, Liquid Metal, Royal, Soft Lux** and **Travertinum**. With its stunning and sophisticated onyx, palissandro and dark marble finishes, the Glamour collection makes a fashion statement touching every corner, where Liquid Metal is more spontaneous in striking gold with concrete finishes, adding a unique and contemporary touch to interiors. With uncompromising attention to detail, the Royal collection adds a commanding elegance to any contemporary living space. Soft Lux adds a genuinely luxurious decadence to the range with its golden and gleaming qualities and elegant marble textures. Finally, the organic textures and timeless golden accents of Travertinum add a natural charm and enduring elegance to any prestigious living space.
