

Maximus Mega Slabs - Big Slabs for Big Ideas

RAK Ceramics brings Italian Opulence to India by launching Maximum Mega Slabs

BIG SLABS FOR BIG IDEAS

We have created a world where BIG is Beautiful, with visually expanded spaces, fewer design interruptions, and endless possibilities.

Maximus mega slabs have such clean and dynamic aesthetics, that they are an excellent choice to make a room feel immediately more refined. This helps create spaces that feel special as if they're stress-free escapes. These slabs can be found in a range of understated colors and textures that make a room feel cozier. The color choices are nearly limitless, from striking blacks and forest greens and deep reds to soft creams, relaxing charcoals, and soothing off-whites.

These slabs are less expensive than stone and look just the same. They can be patterned to look just like any kind of granite or marble.

Maximus mega Slabs, displaying elegant veins are available in Classy marble and granite, stone and wood patterns in 100 plus designs to create surreal ambiances. From stone to concrete, metal, and even wood, porcelain slabs has a look that can be easily adapted.

Features of Maximus Mega Slabs

- Maximus Mega Slabs require fewer grout lines and hence less of cleaning and maintenance. They are extremely durable and strong at 9 mm thickness.
- They are scratch- and spill-resistant as well. It's hard, which means it's difficult to damage the surface in any way.
- This includes the kind of scratches that may result from knives or dropped items.

It also includes even harsher impacts. If you drop a heavy pot on porcelain tile, it won't crack. It also has a very low porosity. This means that it has fewer, smaller pores for the liquid to get into and stain. That essentially means porcelain tile is great at rejecting the absorption of liquid. This is what makes it such a great choice for kitchens and bathrooms. It doesn't decay or deteriorate its rejection of humidity means it won't warp, stain, or malformed.

It will reject moisture and remain easy to clean even in very humid environments. A spill won't stain, even if you don't notice it at first and only get it cleaned up later.

As porcelain slab countertops, flooring, shower walls, backsplashes, and more, the material is very long-lasting.

Available Sizes:-

Maximus Slabs are available in 4 gigantic sizes with 9mm thickness:-

120x240cm; 90x180cm; 80x160cm; 120x120cm
