

RAK Ceramics presents Wood Tile art. Style your tile right.

RAK Ceramics presents Wood Tile art. Style your tile right.

To say that wood tile floors look incredible is an understatement in itself. At RAK Ceramics, we change the World by experimenting. A perfect look-alike of timber manufactured wood tile, our Wood tile Art porcelain and ceramic tiles collection will leave you awestruck. Beautiful & luxurious, wood art on tiles has become a popular flooring choice. Available to lay in study rooms, living rooms, bedrooms, hallways or even board rooms, wood art is aesthetically the best choice that there is.

Tasteful, nifty & reliable, ceramic tiles are resistant to force, blemishes and water absorption. Wood tile plays a pivotal role in setting the interior/exterior look of a residential property, commercial and office spaces. With choices such as oak, rosewood, wood stripe, maple, art wood & so much more, our wood art collection isn't all just brown. Made by World's most significant ceramic brand, RAK Ceramics firmly believes that wood tile art is not just about impersonating wood on a tile. Natural flowing grains, designs that are inspired by nature, an eye for detail such as manufacturing the nubs and swirls of a classic wooden pattern on a tile; makes wood art tiles, a class by itself.

By combining natural beauty with the durability of tiles, wood art collection can give an elegant look even to high moistness, smear prone areas such as kitchen, bathrooms etc. Busting the lore of a wood tile not being fit for exterior purposes, our Marco wood art tiles, for example, are perfect for light commercial areas & domestic purposes too. Available in beige and yellow, Marco tiles bring forth feelings of warmth, comfort and security for your homes and working spaces. Our Travertino tiles are full body porcelain tiles. Glossy and smooth, Travertino tiles have layered lines and patterns that reminisce you of wood. Reserved for a longer sheen look, Travertino tiles necessitate much lesser maintenance to achieve the chosen look.

If you pay close attention to creating a woodsy look, whether in stripes, artsy, or an all English pattern, RAK Ceramics' Wood tile art collection creates the magic of wood no matter what. RAK Ceramics brings you unequalled, best of both worlds' tiles with Wood Art.
