SILVER WINNER AWARD FOR DESIGN CONCLAVE 2022

RAK
CERAMICS

We are delighted to share our achievement of grabbing the Silver Winner Award for Design Conclave 2022. The Design Conclave is hosted by Acetech and graced by eminent personalities. It is a grand exhibition where different collections are displayed and a jury of renowned architects, designers, & developers share their innovative designs and choose their winner.

We have received this distinguished honour for the quintessential display of our collection. A beautiful exhibition comprising myriad tiles, bathroom ware, and sanitary ware. Leading with contemporary & creative designs, we are thankful to have received this award & grateful for everyone who has been part of our outstanding journey.
