

PARLIAMENT OF OMAN

Background The Parliament of Oman is situated in Muscat and is regarded as a symbol of centralized rule, national unity and of formal, yet accessible authority. By definition it is a podium for the people of Oman through their elected representatives. It is also a major interface between the Sultan (Ruler of Oman) and his people. **Scope** The new Parliament House of Oman required a flooring solution that met the scheduling requirements of the development, and provided a durable and appropriate product befitting such a prestigious building. As well as being an iconic landmark of the Sultanate, it would serve the Sultan, VVIPs, Members of Parliament, Administration, Staff and Public functions. **Results** RAK Ceramics' Lounge Series provided the Parliament House of Oman with a solution that embodies both the pride of ancient tradition and the progressive modernity of the Sultanate.
